# ABOUT ME

I am a detail-oriented SQL Developer with a background in finance and a growing passion for data analytics. Currently working as a SQL Developer, I specialize in writing complex queries, optimizing database performance, and ensuring data integrity.
I am continuously expanding my skills in data analysis, visualization, and machine learning to transition into a full-time Data Analyst role

Data Science Integrated Internship (18-3-2025 18-05-2025)

Code B – Data Science Integrated Internship

# MY WORK

This is a showcase of my work in data analytics — combining SQL, Power BI, and analytical thinking to turn raw data into clear, actionable insights. Each project reflects my approach to solving real-world business problems through clean data handling, interactive dashboards, and data-driven decision-making.
